## **DETAILED ACTION**

### ***Response to Amendment***

1. Receipt is acknowledged of the Amendment/Remarks filed July 14, 2006.

### ***Allowable Subject Matter***

2. Claims 1-42 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior art of the record discloses an intrinsic safety barrier located in a non-hazard zone that limits the electrical energy passing between a controller located in the non-hazard zone to a communication device located in a hazard zone. Therefore, the intrinsic safety barrier in a manufacturing system as recited in claims 1, 12, 23, and 32 is not disclosed, taught, or fairly suggested by the prior art. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1-42 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
